FEATURES

01 Grand Total Marks Fix

MARKS

The FlexStudent marks page normally requires you to manually click a "Calculate" button for every single course. Flex Prime eliminates this entirely — it automatically computes and fills in the Grand Total row for all your courses at once, including Total Marks, Obtained Marks, Class Average, Minimum, and Maximum. The Grand Total accordion panel also expands automatically so results are immediately visible.

- Calculates totals for every course simultaneously
- Shows Total Marks, Obtained, Class Avg, Min & Max
- Grand Total panel auto-expands — no manual clicking
- Shortcut: Ctrl + Shift + F

02 What-If GPA Calculator

GPA

Wondering how your grade choices will affect your GPA? The GPA Calculator injects interactive dropdowns directly into the Transcript page for your current semester. Select any hypothetical grade for any course and your SGPA and CGPA update instantly. Handles repeat courses correctly by always using the latest grade per subject.

- Live SGPA and CGPA recalculation as you change grades
- Handles course repeats — uses latest grade per subject
- Colour-coded chips: green (3.5+), blue (3.0+), amber (2.5+), red (<2.5)
- Shortcut: Ctrl + Shift + S

03 Attendance Tracker

ATTENDANCE

The built-in attendance page only shows a vague progress bar — no actual numbers. Flex Prime overlays a clear summary badge on every course tab with the exact breakdown you need. A warning fires automatically when your attendance drops below the critical 80% threshold.

- Absents, Presents, and Total class count per course
- Precise attendance percentage calculated per course
- Red warning badge when below 80% — never miss the cutoff
- Updates automatically when switching between course tabs

04**Marks Change Highlighter****NOTIFICATIONS**

Tired of checking every course manually to see if a teacher uploaded new marks? Flex Prime silently snapshots your marks on every visit. The next time anything changes, the affected course tab glows with a pulsing teal highlight and an "UPDATED" badge. A banner at the top names every changed course. A "NEW" pill highlights the exact section that changed — Quiz, Assignment, Sessional, etc. The Marks icon in the sidebar glows teal so you notice from any page on the portal.

- Automatic background snapshot on every page visit
- Pulsing teal glow on any course tab where marks changed
- Top-of-page banner listing all updated courses by name
- "NEW" pill on the exact section that changed (Quiz, Assignment, etc.)
- Teal ring on sidebar Marks icon — visible from any page
- One-click acknowledgement — clears when you visit the tab

05**Transcript PDF Export****EXPORT**

Generate a clean, print-ready academic transcript straight from the portal. The exported document is styled with university branding, organises all semesters into clearly formatted tables, and displays your CGPA in a prominent summary bar. Open it in a new tab and print or save as PDF in one click.

- Full semester-by-semester course breakdown
- SGPA and CGPA displayed per semester and overall
- University-branded header — looks like an official document
- Accessible from the extension popup on the Transcript page

06**Feedback Autofill****UTILITY**

Course feedback forms taking too long? Select your preferred response — Strongly Agree, Agree, Uncertain, Dissatisfied, Strongly Disagree, or Randomised — and Flex Prime fills in every single question simultaneously. What used to take minutes now takes one click.

- Six response options including a smart randomise mode
- Fills every question on the form in one shot
- Accessible directly from the extension popup

07**Theme Engine****DESIGN**

FlexStudent's default UI is dated and hard on the eyes during late-night sessions. Flex Prime rebuilds the entire portal with a polished design system using Plus Jakarta Sans and JetBrains Mono typefaces, smooth animations, refined card layouts, and your choice of three carefully crafted colour themes.

- Midnight — deep navy/slate dark theme for night sessions (default)
- Classic — clean white/blue premium light theme
- Nordic — authentic Nord Arctic colour palette
- Theme persists across sessions and page navigations

08 Smart Keyboard Shortcuts

SHORTCUTS

Every core feature is reachable without touching the mouse. Press a shortcut from anywhere on the FlexStudent portal and Flex Prime navigates to the correct page automatically — without logging you out — then activates the feature once the page has loaded.

- Ctrl + Shift + F — Fix Grand Total Marks (navigates if needed)
- Ctrl + Shift + S — Launch GPA Calculator (navigates if needed)
- Session-safe navigation: uses in-page sidebar links, never hard redirects
- Auto-injects feature after page load — fully hands-free

INSTALLATION

1

Download the ZIP

Download the latest FlexPrime .zip file shared with you. Do not extract it yet.

2

Open Chrome Extensions

In Google Chrome, navigate to `chrome://extensions`, or go to Menu > More Tools > Extensions.

3

Enable Developer Mode

Toggle on "Developer mode" using the switch in the top-right corner of the Extensions page.

4

Extract the ZIP

Extract the FlexPrime .zip to any folder. You should see `background.js`, `content.js`, `popup.html`, `popup.js`, `manifest.json`, and `favicon.png`.

5

Load the Extension

Click "Load unpacked" on the Extensions page, then select the extracted FlexPrime folder.

6

Pin to Toolbar

Click the puzzle-piece icon in Chrome's toolbar, find Flex Prime, and pin it for quick access.

7

Updating to a New Version

Extract the new ZIP, then go to `chrome://extensions`, find Flex Prime, and click the reload icon on its card. No need to remove and re-add it.

KEYBOARD SHORTCUTS

SHORTCUT	FEATURE	NOTE
----------	---------	------

Ctrl + Shift + F	Fix Grand Total Marks	Works from any FlexStudent page
